UNIQUE FORMULATION PROCESS

- Produces homogeneous emulsion that does not separate (layer formation)
- Long shelf life while maintaining high efficacy. 2 years before opening and 6 months once container is open
- Better and safer than other oils for plants

GrowSafe™ is a natural emulsion with two mechanism of actions:

Physical-Coating: Repetitive spraying produces a protective layer providing defense from pests as well as their proliferation.

Phyto-Chemical: Natural plant protection elements present in the oils, serve as control & repellent.

Effective Against:

- Powdery Mildew
- Downy Mildew
- Two-Spotted Mite
- Russet Mite
- Broad Mite
- Aphids
- Whiteflies
